Professional Summary

Results-driven Full Stack Developer with over 8 years of experience designing and developing scalable, user-focused web and mobile applications. Skilled in delivering high-performance solutions using React, Next.js, React Native, Node.js, and modern DevOps practices. Strong background in product design, cross-functional collaboration, and mentoring junior developers. Successfully led and executed multiple enterprise, educational, and startup projects globally. Open to remote and freelance opportunities.

Technical Skills

- Frontend Development: React, Next.js, JavaScript, TypeScript, Vue.js, Svelte, Tailwind CSS
- Mobile Development: React Native, Expo, Flutter
- Backend & Databases: Node.js, Python, PostgreSQL, MongoDB, GraphQL
- UI/UX Design Tools: Figma, Sketch, Adobe XD, Photoshop, Illustrator
- Tooling & DevOps: Git, Vite, Webpack, Electron.js, CI/CD, Firebase, Supabase
- Soft Skills: Team leadership, mentoring, communication, remote collaboration

Work Experience

Co-Founder & Full Stack Developer

Apprentice Lab – Texas, USA | 2023 – Present

- Co-founded a tech company focused on building digital products for commerce, education, and government.
- Designed and deployed scalable web and mobile applications using modern tech stacks including React Native, Supabase, Firebase, and Node.js.
- Led UI/UX design efforts using Figma and implemented clean, maintainable interfaces with Tailwind CSS.
- Taught coding bootcamps and trained aspiring developers in full-stack development through live and recorded sessions.
- Oversaw DevOps workflows for continuous deployment and GitHub-based team collaboration.

Freelance Full Stack Developer

Remote | 2017 – Present

- Delivered full-stack solutions for startups, small businesses, and educational institutions across various industries.

- Built responsive web apps using React, Next.js, and Tailwind CSS, integrated with backend APIs via Node.js and Supabase.
- Developed mobile apps using React Native and Expo, deployed to both iOS and Android platforms.
- Created custom admin dashboards, booking platforms, eCommerce apps, and real-time data-driven interfaces.
- Integrated third-party services such as payment gateways (e.g., Paystack), authentication, storage, and analytics.
- Collaborated with clients through Agile processes, providing technical consultation, scoping, testing, and deployment.
- Maintained high standards in code quality, version control (Git/GitHub), and documentation.
- Mentored junior developers and provided code reviews to support global developer communities.

Selected Projects

- TaskDey App – On-demand services app (React Native, Supabase, Node.js, Expo)
- Farm Eco – Agricultural tools marketplace (React, Zustand, Paystack, Supabase, Vite)
- Ree Services – Shop tracking and digital bookkeeping app (React Native, Firebase)
- Pastor Benjamin Library – Faith-based digital archive (React Native, Supabase, Firebase)
- School Management System – Admin portal for education (HTML, JavaScript, Node.js)
- Richy Electricals Website – Service-based website (HTML, CSS, JavaScript)

Education

Bachelor of Science in Mathematics

University of Education, Winneba, Ghana

Volunteer & Teaching

- Coding Instructor, Apprentice Lab – Mentored global students in frontend, backend, and mobile technologies.
- Mentor, Dev Communities – Supported junior developers in GitHub collaboration, project architecture, and job preparation.
